

MICROBUBBLE WASH

Carbonated* Microbubble Wash

PLOSION
de Salon

* Carbon dioxide gas (spray agent)

Carbonated* microbubbles and the face wash that keeps evolving

Blissful bubbles for washing and moisturizing.

A smooth foam that you can't help but touch has been made possible with the latest technology for carbonated* microbubbles.

Your skin will feel even more refreshed and moisturized with PLOSION's unique "CO² Retention Method".

Feel the soothing comfort
with your own skin.

* Carbon dioxide gas (spray agent)

MICROBUBBLE WASH
(Massage Face Wash)

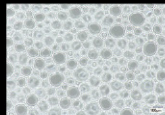

Carbonated* microbubbles and the face wash that keeps evolving

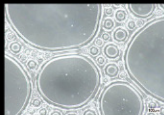

A microbubble that is smaller than the pore of your skin
combined with carbonated technology.

PLOSION carbonated* microbubble wash is a new facial cleanser
concept developed by researching skin adhesion and dirt absorption.

Fine and elastic, the bubbles gently envelop and
wash the skin clean.

Carbonated* microbubble foam

Standard foam
(Other product of our company)

The fine carbonated* microbubble foam spreads over the skin
and comfortably washes away any dirt and grime.

"CO² Retention Method" provides deep moisturization throughout your skin.

Features carefully selected natural ingredients for storing moisture in the skin's surface. The carbonation blends the veil of moisture into the skin to gently bring it together and improve skin care penetration.

Citron Ceramide *1

Cactus Extract *2

Algae Extract *3

Carbonated beauty to brighten the skin.

1 Face Wash

PLOSION
MICROBUBBLE WASH
45g ¥1,200 (excluding tax)
160g ¥3,800 (excluding tax)

Avoiding the area around the eyes, gently massage onto the face and leave it on for approximately 30 seconds. When the bubbles begin to disappear, wash away with lukewarm water.

2 Lotion

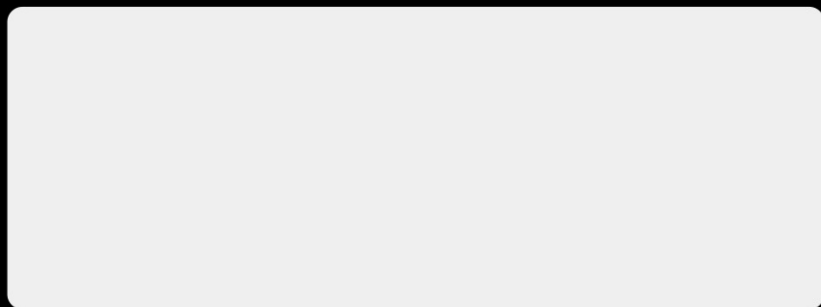

PLOSION
Carbonated Mist Handy Set
¥27,500 (excluding tax)

PLOSION
Carbonated Mist Face Set
¥47,500 (excluding tax)

Apply the lotion to your skin. When using Carbonated Mist, hold the container about 10cm from the face and spray it on.
