ION-SPA
BICARBONATE*1 TABLET

True beauty flows out.

BICARBONATE*1 TABLET is here.

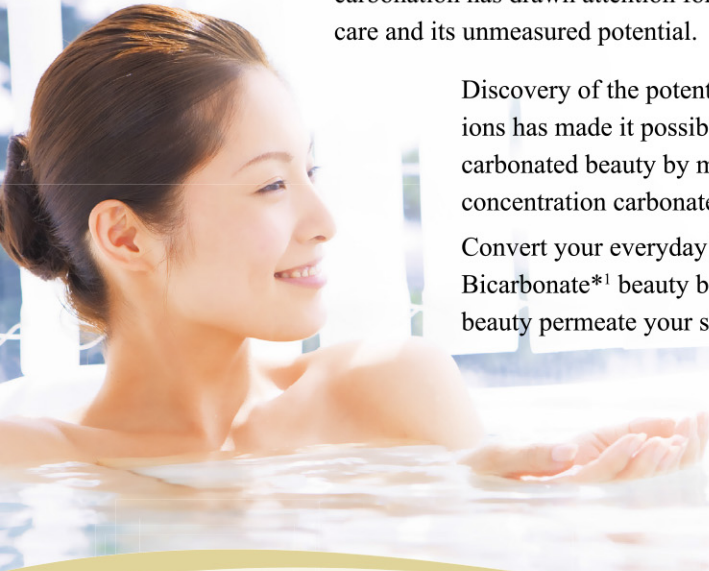

*1 Hydrogen Na Carbonate (skin conditioner)

Let the true beauty of your hair and skin flow out with a Bicarbonate*¹ beauty bath.

Carbonated springs have long been loved and known in Europe as the “Bath of the Heart”. In Japan, carbonation has drawn attention for its use in medical care and its unmeasured potential.

Discovery of the potential of bicarbonate ions has made it possible to pursue carbonated beauty by means of a true high concentration carbonated bath.

Convert your everyday hot water to a Bicarbonate*¹ beauty bath and feel the true beauty permeate your skin.

The two powers of a BICARBONATE*¹ TABLET

Bicarbonate Ions + Beauty Ingredients

for a true bicarbonated bath

to protect the skin from dryness

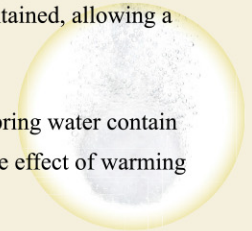

Warms the body and provides moisture and luster to both your skin and hair.

What are bicarbonate ions?

Carbon dioxide gas has the property of losing gas when dissolved in hot water. This is where “bicarbonate ion” comes into play.

In a state of bicarbonate ion, the gas can be steadily maintained, allowing a highly concentrated carbonated bath.

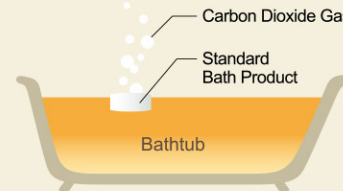

Germany's Baden-Baden and other famous carbonated spring water contain large amounts of bicarbonate ions and are said to have the effect of warming the body over a long period of time.

Bicarbonate ions

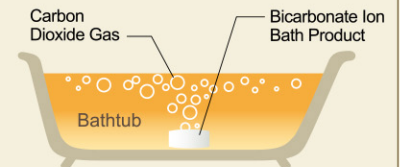

maintain high concentration for 24 hours.

Once dissolved in hot water, bicarbonate ions remain, maintaining stability for over 24 hours.

Standard Carbon Dioxide Gas Bath Product

Floats to the surface and releases bubbles. Carbon dioxide gas escapes into the air.

Bicarbonate Ion Bath Product

Release bubbles while underwater. Bicarbonate ions are dissolved, but maintain stability for over 24 hours.

PLOSSION BICARBONATE*¹ TABLET was developed to effectively release the optimum volume and size of bubbles. This makes it possible for an even more high concentration carbonated bath.

*¹ Hydrogen Na Carbonate (skin conditioner)

Warms your body and moisturizes your skin

Bicarbonate*1 Beauty Bath

Baths of over 42°C are said to be a burden on the body.

But a mild 38°C bath with 5 BICARBONATE*1 TABLETs is enough to warm the body with bicarbonate ions.

Enjoy a soft and comforting bath that is rich with beauty ingredients and free of chlorine.

Feel your skin glow from the healthy, unobtrusive bath.

- © Warm water that is slow to chill
- © Retains the necessary sebum and removes chlorine to protect your skin
- © Moisturizing ingredients*2 that help keep your skin glowing

Surprisingly silky

Bicarbonate*1 Beauty Head Spa

Improve the effects of a head spa treatment by placing a single tablet in the shower head.

Doing so, the bicarbonate ions remove dirt and grime from the hair, returning it to its natural state for the adhesion of treatment and other ingredients.

The result is a smooth and silky finish for your hair.

- © Treatment results that return your hair to its natural state
- © Improves scalp condition by washing to the pores

Feel the difference after a wash

Bicarbonate*1 Beauty Face Washing

A single tablet in a wash bowl will retain the necessary sebum while removing dirt and grime.

What's more, the moisturizing ingredients* helps your skin retain its glow while providing comfort.

- © Wash off the excess to experience the comfort and glow of your skin

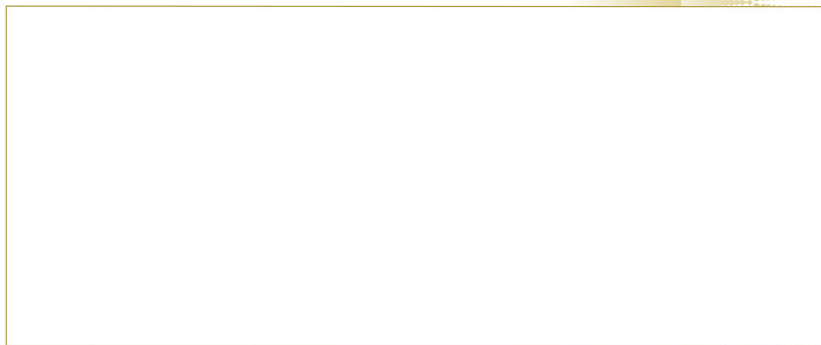

PLOSION BICARBONATE TABLET
